

4 July 2012- Philippine Ambassador to Brazil Eva G. Betita led the officers and staff of the Philippine Embassy in Brasilia, members of the Filipino community and special guests in commemorating the 114th anniversary of the proclamation of Philippine Independence and the 151st birth anniversary of Dr. Jose Rizal last June 29.

The only data that were not part of the Finchesy analysis was the methicillin follow-up data from 1995. In the 1995 survey, 10 patients, the authors wrote, were able to tell their doctors that they had taken methicillin.
